

Instructions to setup your VoIP Software

1. Click on the **red-circled arrow** and go to “SIP Account Settings”

2. Click “Add” button below

3. Fill the boxes below accordingly. Replace **VoIP Account ID** with account **ID supplied by BestDealVoIP.com**. Click OK then close. You are now ready to make phone call.

To make a call, please dial:

Country Code + Area Code + Phone Number

The image shows a screenshot of a software dialog box titled "Properties of Account 1". The dialog has a close button (X) in the top right corner. It features several tabs: "Account", "Voicemail", "Topology", "Presence", and "Advanced". The "Account" tab is currently selected. The "User Details" section contains the following fields:

- Display Name: VoIP Account ID
- User name: VoIP Account ID
- Password: A field with 10 black dots for masking.
- Authorization user name: VoIP Account ID
- Domain: sip.bestdealvoip.com

The "Domain Proxy" section contains:

- An unchecked checkbox labeled "Register with domain and receive incoming calls".
- A section titled "Send outbound via:" with two radio buttons: "domain" (which is selected) and "proxy".
- Next to the "proxy" radio button is the label "Address" followed by an empty text input field.

The "Dialing plan" field at the bottom contains the text: #1\|a\|a.T;match=1;prestrip=2; At the bottom of the dialog are three buttons: "OK", "Cancel", and "Apply".
